AMENDMENT

Dear Sir:

Responsive to the Office communication mailed June 15, 2005 in the above-referenced patent application, please amend the above-referenced application using the below instructions.

REMARKS

Reconsideration of this application, as amended, is respectfully requested.

In accord with 37 C.F.R. § 1.121, the amendment to the claims and a complete listing of all pending claims in the application begin on a separate sheet. For the convenience of the Office staff, the amendment is placed in the below Appendix and incorporated herein by reference thereto. The amendment adds no new matter into the application.

The present amendment responds to the Office action and corrects certain obvious typographical or clerical errors that recently came to light. In particular, it was noticed that R₆ is defined in Claim 1 as being alkenyl of 2-6 carbon atoms or alkynyl of 2-6 carbon atoms whereas the proviso inadvertently referred to the alkenyl and alkynyl substituents in the R₆ position as having 2-7 carbon atoms. To be consistent with the definition of R₆, the obvious typographical or clerical error in the proviso is being corrected (page 10 of the amendment).

At the outset, it is gratefully acknowledged that the Examiner allowed Claims 1, 10, 19 and 20. Applicants also greatly appreciate the Examiner's kind indication of how they can put the case in condition for allowance, *i.e.*, combine Claims 22 and 23; and cancel Claims 32 and 33. As will be explained in more detail below, Applicants complied in part but, for reasons given herein, it is hoped that the Examiner will be persuaded to allow the case despite the inclusion of Claims 32 and 33 in the pending claims.
